## Projects & Experience (Deloitte USI)

---

### NextGen Verification Hub

July 2025 – Present

- Built 30+ admin and customer portal screens, setting up project structure and coding standards from the ground up. Improved UI consistency and code quality by updating components to match latest FIGMA designs. Created database tables and led backend development for new interface integrations. Fixed 20+ bugs, increasing system reliability and performance across customer workflows. Conducted performance tests and optimized file uploads to ensure smooth user experience.

### SC Customer Porta

March 2025 – July 2025

- Directed architectural design and delivered urgent demo login screens for the SCCP project. Modernized the codebase by converting 100% of legacy class components to functional React components, improving scalability and maintainability. Developed and integrated 20+ UI screens with backend APIs, and implemented Spanish translations to support multilingual users. Streamlined the codebase to reduce load times by 30% and modularized key features for easier reuse and ongoing development, contributing to the successful launch of the Appeals module. Created comprehensive unit tests and documentation to enhance code reliability and facilitate team onboarding.

### Michigan – Mobile & Accessibility Improvements

Jan 2025 – March 2025

- Fixed 80+ mobile responsiveness defects and delivered 99% closure of 60+ ADA accessibility issues. Optimized React UI by removing redundant DOM structures, improving page load speed by 30%, and fixing 60+ lint errors.

### FL Access

November 2023 – Dec 2024

- Delivered 80+ UI screens with backend integration and fixed 50+ bugs, ensuring full accessibility compliance (ADA, NVDA, AXE). Played a key role in stabilizing RMB and RAC modules by managing SIT readiness and closing 40+ validation tickets. Led a module to timely completion and resolution, and supported team growth by mentoring and onboarding new developers through targeted knowledge-transfer sessions.

## College

---

### Parala Maharaja Engineering College

Berhampur, Odisha

B.TECH IN MECHANICAL ENGINEERING

2016 – 2020

GPA: 8.35

## Personal Projects

---

### Aditi Textile

E-COMMERCE PLATFORM FOR SAMBALPURI CLOTHING BUILT WITH REACT 18. FEATURES INCLUDE PERSONALIZED RECOMMENDATIONS, WISHLIST, REAL-TIME CHAT, GOOGLE SIGN-IN (FIREBASE), AND RESPONSIVE DESIGN.

<https://adititextile.com/>
