EXPERIENCE

•Front-end Developer *Sept 2021 - Present*
Deloitte Hyderabad

- **FL SSP:** FL SSP is a comprehensive platform facilitating access to social services. Enables users to apply for benefits, renew existing ones, appoint representatives, upload documents, report changes, and communicate with caseworkers seamlessly.
- Managed specific project components to ensure seamless integration with other modules, enhancing overall system efficiency.
- Conducted rigorous ADA, NVDA, and Cross-Browser Testing to ensure the platform's accessibility for individuals with disabilities.
- Proactively resolved ADA/UI defects, reducing technical debt by 45% and improving overall system reliability.
  Tech Stack: reactJS, SourceTree, pgAdmin, Postman, Axe-dev tool, NVDA, FIGMA, Lambda Test

- **NextGen 4.0:** Integrated Eligibility Project that encompasses both Customer and Worker Portal. Facilitates users in submitting appeals to the state regarding health benefits, SNAP, Medicaid, and similar issues.
- Enhanced user experience, contributing to a 20% increase in customer satisfaction ratings.
- Integrated RESTful APIs, optimized data transfers, and employed asynchronous programming to improve data flow efficiency by 35%.
- Proactively resolved ADA/UI defects, reducing technical debt by 45% and improving overall system reliability.
  Tech Stack: reactJS, SourceTree, DBeaver, Postman, JSON

- **HealthChoice:** HealthChoice is an Indian marketplace that helps customers search for health policies and check eligibility.
- Developed compliant UI screens using React.js, reducing load times by 25%.
- Implemented responsive design with media queries and Flexbox for multi-device use and optimized healthcare data processing with Redux.
- Created comprehensive test plans and executed manual tests, ensuring 100% coverage.
  Tech Stack: javascript, react.js, redux, git, soapUI, Strapi, Figma, Jaws, Wave
